GALLERIA O. ROMA

NOMAD MONACO

VILLA LA VIGIE

Authors: Campana Brothers, Pietro Chiesa, Gabetti & Isola, Iosselliani Design, Achille Salvagni

Giustini / Stagetti Galleria O. Roma is happy to announce its participation at Nomad, the first edition of a new traveling showcase dedicated to collectible design and presented in the French Riviera, on the occasion of the Monte Carlo Art Week. The venue of this first edition will be Villa La Vigie, built in the early twentieth century for an English magnate on the top of a cliff and restored by Karl Lagerfeld as his residence in the 90s.

Known particularly for the jet set, the French Riviera has always been admired for its elegant parties and villas set among the natural beauty of the cliffs. Its Mediterranean atmosphere has enchanted so many of the greatest artists of the last century. The luxury and the high society life that surround Monaco, have always been the scene of glittering and golden summers of people looking for that excessive kind of entertainments so often loved and described by cinema and literature. With its old city, the gardens, the sea, the terraces and the balls, the constant pursuit of perfection, Monaco is the essence of a timeless glamor, more elegant, more exclusive, more fascinating than any other destination.

At NOMAD MONACO Giustini / Stagetti Galleria O. Roma shows an exceptional selection of both modern and contemporary precious furnishings, with the intention to give the visitors the magical atmosphere that surrounds the history of this small kingdom. From the simple elegance of the 30s and the refined choice of materials by Pietro Chiesa, to the Campana Brothers featuring part of the "Brazilian Baroque Collection" inspired by the Roman Baroque and interpreted through the use of gold and white fur that from the sofa stretches on the floor; from the eclecticism of architect Achille Salvagni who combines traditional craftsmanship and contemporary elements, to the 70s glitter glamour style of Iosselliani Design. The luxury, and its variations, shown in one single room.
